

**Transportation University**  
 NDTA-USTRANSCOM Fall Meeting

St. Louis Union Station  
 31 Oct – 3 Nov, 2016

**Title:** Analytics

**Abstract:**

NOTE: This class is designed at the following experience level for this topic – **intermediate**

This class aims to increase the understanding of the power of analytics to inform transportation studies and decisions. Topics will include Data Analysis, Analytics, Decision Support, and the “Cost of Being Wrong.” Each topic will detail definitions, methods/approaches, and provide a USTRANSCOM-led example.

**Organization:** United States Transportation Command Joint Distribution Process Analysis Center (JDPAC)

**Website:** N/A
