

Transportation University
 NDTA-USTRANSCOM Fall Meeting

St. Louis Union Station
 31 Oct – 3 Nov, 2016

Title: Transportation Programs Overview (GOCARE, DTR, MFTURP, TDR, and more)

Abstract: NOTE: This class is designed at the following experience level for this topic – **intermediate**

The purpose of this class is to give a basic level of understanding and awareness of various SDDC Transportation Programs to include: Military Freight Traffic Unified Rules Publication (MFTURP); Defense Transportation Regulation (DTR); Transportation Discrepancy Report (TDR); Government Cargo Recovery Effort (GOCARE); Pre-Audits; Cost Disputes; Carrier Performance. The audience will be able to participate in academic discussion about the relationship between transportation planning, transportation policy, and transportation discrepancies and disputes.

Intended Audience: Installation Transportation Officers/Transportation Industry Representatives

Organization: SDDC G3 – Transportation Programs, Policy, and Systems

Website: <http://www.sddc.army.mil>

Instructor:

Mr. Bryan Edwards: Has over twenty years of experience in defense transportation system ranging from the tactical to the strategic level. He holds a master's degree in Procurement and Acquisition Management.

Mr. Charles Morgan: Has over 19 years as a DOD civilian in the transportation field; served 20 years in the Army as Traffic Management Specialist, 88N. Assignments include SDDC, DLA Disposition Services, Department of Defense Dependent Schools (DoDDS), and Army Depot Systems Command (DESCOM).

Session POC: Bryan Edwards, bryan.d.edwards4.civ@mail.mil, 618-220-7628, Scott AFB, IL
