

**Transportation University**  
NDTA-USTRANSCOM Fall Meeting

St. Louis Union Station  
31 Oct – 3 Nov, 2016

**Title:** KC-46--Capabilities and Impact on the Warfighter

**Abstract:** This course provides an overview of Air Mobility Command's top acquisition priority, the KC-46A Pegasus. This session walks through the current status of the program, operational capabilities of the aircraft, and the logistics support strategy.

**Organization:** HQ AMC/A5Q

**Instructors:**

Major Samuel J. Ensminger, USAF, [samuel.ensminger@us.af.mil](mailto:samuel.ensminger@us.af.mil); an Air Force Senior Pilot with over 2,700 flying hours in the KC-135R/T Stratotanker and T-1A Jayhawk. He has commanded missions in the Pacific, European, Asian, African and Middle-Eastern theaters most recently serving as the Chief of AMC Tanker Requirements where he is the command advocate and requirements manager for MAF air refueling aircraft.

Maj Katherine McDowell, USAF, [katherine.mcdowell@us.af.mil](mailto:katherine.mcdowell@us.af.mil); an Air Force Logistics Readiness Officer with 10 years time in service. She has been a flight commander in squadrons at Seymour Johnson AFB, Osan AB, and Ramstein AB. Additionally, he has deployed to Iraq and Kuwait. Since 2013, she has been assigned to HQ AMC and currently serving as Chief, Life Cycle Logistics Requirements in A5Q.

**Session POC:** Major Samuel J. Ensminger, USAF, [samuel.ensminger@us.af.mil](mailto:samuel.ensminger@us.af.mil)

NDTA University Coordinator – Irvin "Irv" Varkonyi, DC NDTA,
