

Title: Railcar Top Loading

Abstract:

Learn the challenges and procedures for railcar top loading.

Organization: BNSF Railway

Website: www.bnsf.com

Instructor

Scott VanGosen, was appointed Manager Open Top Loads in November 2010, reporting to Patrick Whelan, Director Mechanical Engineering--System Mechanical. Scott is responsible for Open Top Load Securement, damage prevention, and safety regarding shipment of lading on open top rail cars such as Steel Products, Lumber Products, Military Equipment and Machinery. Prior positions held within BNSF include Manager Technical Training, Mechanical Foreman and Carman-all within the Mechanical Department. Scott has been with BNSF since 1993.
