

Title: GARD (Get Airport Ready for Disaster)

Abstract: This class is designed at the following experience level for this topic as **introductory**

What is GARD? It is Get Airport Ready for Disaster. It is a 3-5 day training program for airport managers to be better prepared for the logistical consequences of natural disasters at airports. It brings disaster related authorities and experts together and allows airport management to become actively involved in disaster preparedness. It provides a clear action plan to increase airport surge capacity and triggers follow up activities for disaster preparedness at airports. GARD has been deployed in El Salvador, Dominican Republic, Peru, Panama, Turkey, Armenia, Lebanon, Nepal, Bangladesh, Indonesia, Philippines and other nations. DHL Aviation provides professional trainers at no charge to the airport

Organization: DHL

Website: www.dhl.com
