

Transportation University
 NDTA-USTRANSCOM Fall Meeting

St. Louis Union Station
 31 Oct – 2 Nov, 2016

Title: Global Low Volume/Low Frequency Distribution Challenges

Abstract: Panelists from USTRANSCOM, USAFRICOM, and commercial industry will discuss the challenges and future considerations for low volume logistics requirements in distribution challenged areas of the world, including Africa-

DoD Global Distribution requirements are supporting smaller military forces involved in numerous operations in austere environments where logistics and distribution infrastructure is sparse. DoD and commercial distribution partners must evolve to provide effective and efficient distribution solutions.

NOTE: This class is designed at the following experience level for this topic – introductory/intermediate

Organization: Diverse

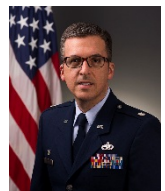

Website: N/A

Moderator:

Mike Hansen. *Mike is Chief, Logistics Sustainment Division, Strategy, Policy, Programs, and Logistics Directorate, United States Transportation Command at Scott Air Force Base, Illinois. He is responsible for developing, assessing and implementing deployment and distribution capability solutions with Combatant Commanders, Services, Agencies and others to optimize transportation planning in joint distribution operations. Mike has over 32 years of military and federal service and has held a variety of assignments in logistics both at wing and staff level. His email: michael.a.hansen12.civ@mail.mil*

Roundtable Participants:

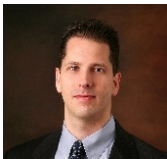

Lt Col James B. Dickey. *Lt Col Dickey is Deputy Chief, Logistics Operations Division, U.S. Africa Command. He leads a joint team of military and civilian personnel to synchronize deployment and distribution operations across the continent*

of Africa through coordination with Functional Combatant Commands, Service Components, Sub-Unified Commands and Joint Task Forces.
His email: james.b.dickey2.mil@mail.mil

Denise Cameron. Denise is Chief, Multimodal and Regional Airlift Branch for the USTRANSCOM Acquisition Directorate. Denise and her team manage a variety of air transportation contracts including passenger and cargo support for Afghanistan and Africa, air ambulance services, and global cargo movement via Commercial Multimodal contracts. Denise's contracting background includes experience in domestic trucking, Army Logistics Civil Augmentation Program (LOGCAP), IT services and construction. Her email is denise.e.cameron.civ@mail.mil

Eric Topp. Eric is Senior Vice President, Bolloré Logistics. He heads up Bolloré's global efforts around the Defense and Government vertical. His job is to find solutions to shipping "strange and unusual items to strange and unusual places".

Bolloré Logistics is one of the top ten leading integrated logistics providers around the globe and the number one trusted partner in Africa. Eric has over 25+ years of developing and implementing complex supply chain solutions that integrate the conceptual best practices and operational reality. Eric's background includes: Director of Business Development and Contracting at APL Lines Limited, Director of Sales and Business Development at Cubic, Solutions Executive/Sr. Consultant at IBM Business Consulting Services, and Army Logistician (US Army Transportation School, AMC LOGSA, SDDC (MTMC) and USEUCOM J4). His email: Eric.Topp@Bollore.com

Session POC: Mr. Mike Hansen, michael.a.hansen12.civ@mail.mil, 618-220-6640, USTRANSCOM
